PERSONAL DETAILS

Date of Birth: 23.06.2000

Nationality: Indian

PROFILE SUMMARY

Power Platform Developer with 5+ years of experience delivering scalable low-code solutions across Canvas Apps, Model-Driven Apps, Power Automate, and Copilot Studio. Proven expertise in Dataverse architecture, AI-integrated workflows, PCF development, and Power BI reporting. C1-level proficiency in German, with a strong track record of working in bilingual, cross-functional enterprise environments in India and Germany.

PROFESSIONAL EXPERIENCE

Adastra | Pune

Data Engineer (Power Platform Developer)

January 2025 - Present

- Built Model-Driven Apps on Dataverse with relational structures, business rules, calculated/rollup fields, and governed Dev/Test/Prod environment setup.
- Implemented JavaScript for custom commands, dynamic behaviour, form validations, and on-change/on-save logic to enhance Model-Driven App UX.
- Designed Custom Pages extending Model-Driven Apps with modern layouts, data views, and form customisation options.
- Created a JSON-Schema-driven dynamic form engine in Canvas Apps managing 80+ entities and 1,000+ attributes, with a dynamic grid and configuration interface for real-time field management.
- Implemented Dark/Light mode UI, KPI dashboards in Power Fx, and embedded Power BI reports for real-time analytics.
- Developed Power Automate workflows including approval cycles with Adaptive Cards delivered via Teams and Outlook, document extraction pipelines, scheduled maintenance flows, and cross-platform notifications.
- Integrated flows with Dataverse, Power Apps, SharePoint, Office Scripts, email systems, and third-party REST APIs.
- Built AI-powered document extraction pipelines using Azure AI Services and Azure REST APIs, auto-populating form fields in Canvas and Model-Driven Apps via a dedicated AI Assistance screen covering upload, extraction, validation, and auto-fill in a single workflow.
- Created advanced Copilot Studio agents supporting file uploads, dynamic form retrieval, and CRUD operations via a configured MCP server; deployed agents into Teams and Copilot Chat across multiple projects.
- Integrated knowledge articles and documentation into Copilot to guide users through workflows, troubleshooting, and process walkthroughs.
- Built Power BI reports with complex DAX measures, dynamic parameters, bookmarks, drilldown visuals, and performance-optimised data models including a 5-level hierarchy model for ServiceNow reporting and an advanced Allocation Report with multi-source data transformation.
- Provisioned and administered environments, managed user access via Entra ID and security groups, configured security roles, access teams, and column-level security, and handled ongoing admin requests from the service desk.
- Managed solution deployments via Azure DevOps pipelines across Dev/Test/Prod with version governance and controlled releases.
- Set up Dataflows to import master data from Excel sources into Dataverse tables and used Office Scripts to extract and convert Excel table data into JSON arrays for downstream flow processing.

T-Systems ICT India Pvt Ltd | Pune

Junior Consultant

May 2022 - December 2024

- Automated business processes using Power Automate flows, generating 190+ hours of additional team bandwidth.
- Developed responsive Canvas and Model-Driven Apps integrating SharePoint and Excel as primary data sources.
- Designed and delivered an end-to-end Power BI weekly reporting solution including data modelling, Power Query transformations, and interactive dashboards with slicers and drilldowns.
- Built application prototypes for stakeholder demos prior to full development.
- Tested and troubleshooted apps and flows for integration quality and functional accuracy.
- Prepared user documentation and troubleshooting guides for end-user adoption.
- Supported international colleagues through the Power Platform community on automated process design.
- Provided Level 1 technical and business operations support in German (C1 proficiency).
- Led customer kick-off meetings; stepped in as Team Lead when required.

Concentrix Daksh Services India Pvt Ltd | Pune

Advisor

June 2020 - March 2022

- Maintained consistent performance with an average RAP of 90%+.
- Handled 50+ daily client calls in German with native-speaking customers.
- Achieved an average customer satisfaction rating of 87%.
